Financial Aid Options

Most Professional students that complete a FAFSA are eligible for a Federal Unsubsidized Direct Loan of \$40,500 per year. Additional funding, up to the full COA, less other financial aid can be obtained through Graduate Federal PLUS Loans. Scholarships, Assistantships, and Fellowships count as 'other financial aid' and can reduce initial loan awards.

The \$760 for the North American Licensing Examination is included in the course materials budget. The first year includes costs for a computer.

A Rabies Vaccination is required during the second year and costs \$800! This cost is included in the insurance section of the COA.

Transportation include additional costs for experiential learning travel for the fourth year.

Loan Fees are only included if federal student loans are used.
