Populating a College Application

All students will see the General Application.

College Applications (College or Department-level applications) will not appear for prospective students until the General Application has been submitted and you have selected a college on the question asking “Which college and/or department would you like to apply for scholarships?”

Some students may not see a College Application. (Some colleges are not using one, or the application may not be open at that time.) College Applications are typically used for groups of students from a single college, but a few departments (e.g., Department of Accounting & Information Systems) will have their own application.

Please check the main landing page to see a list of colleges that have applications currently open.
